WASSUP FOLK This is ya boy CRUELL or MR. CRUELL droppin dat bass for ya ***** once again. My first national release was with a group called TRACKSQUAD. We debut in 2001 with a single called POKE IT OUT which debut at .11 on the billboard hot rap singles. We released our freshman album TRACKSQUAD...GOT DAT STANK in september 2001 two weeks after the world trade center tragedy. Of course the industry took a big hit during that time period and the group began to dismantle. During the time in between I have made guest vocals on various artist records. Now back in stride once again, Cruell is ready to expose the world to the sample that some have had the pleasure to experience. As far as stage presence, I'm no stranger to that at all. I've had the pleasure to share the stage with numerous artist.
