In the city well known for jumpstarting moonwalks and crime life, midwest legend Rondell Adams aka DJ FREEZROCK created his own style of music that influenced many. Born in 1975, FREEZROCK is a true crate digger, accumulating soul, funk, afrobeat, gospel, classic rock, punk rock, metal, disco, garage, house, hip hop, doowop, jazz, blues, bossanova, calypso, reggae, dancehall, reggaeton, salsa, soca, bachata, samba, polka, waltz, IDM, electro, drum and bass and jungle records on vinyl. FREEZROCK is a DJ in the Midwest and so far he has rocked the following venues: (Chicago)Dragon Room (Now Boutique), Lava Lounge, US Beer Co, Red Dog, (Chicago South Suburbs) The Lick, Pepe's, Whats Up, (Indiana) Club International, Diamond Center, Longshots, Satches, Game Time, Finkes, Angelos, The Edge, The Ten, The Savoy, (Indianapolis) First Fridays and countless college jams, house partys and park jams. Known to rock crowds, FREEZROCK can blend any genre with accuracy and use this multigenre djing to give energy. He also uses this style when he creates beats on his MPC. Sometimes he blatantly rocks a beat with a simple loop, often times he chops, time stretches, reverses, and even plays out a sample as if it were "keys on a keyboard." The result is a composition that hits hard, with melodies and sounds pleasing to the ears of emcees, vocalists, dj's and club goers. FREEZROCK is not limited to styles or genres when making beats/compositions. He is not your cookie cutter dj/producer. He is a dj who knows what a production should sound like on the dancefloor, and a producer who knows what the crowd and the dj likes, all the while thinking outside of the box.
