Im a Dj/Producer living in Miami, FL. Born in New York, grew up in Dallas, TX. Ive always had electronic music in my heart since i was very young. If you would have told me when i was young that I was going to play at clubs and make music, I would have told you that I'm only here to support the the music. But now I support the music in a different way, and Im having alot of fun. I spin Electro primarily, but I also spin Progressive Trance and Techno. Im currently producing tracks but I havent released anything yet.
