This is the Master Invitation Profile for UK and London Djs. Your welcome to approve the invitation and also as well create your DJ profile. you can upload up to 2 Gigs of Media for your profile.

So tired of using them Usendit or other file sharing systems to send your mixes to potential booking agents use our system instead thats why it was created for a better management system for artists and djs both.

Once you register, login to the system and you will be Directed to the Admin Control Panel from their click on the artists tab and then click on modify artist button to modify your main profile, include your biography, attach your photo then enter all other important details and at the bottom of the page click the modify artist button to update that section.

To add your mixes click on the Songs Tab and Create New Song button on that page put in the song name, credits (your name) scroll down for the song information put in the mix track listing then scroll down attach the MP3 to the HI-FI song upload section only, below that designate streaming or streaming + downloading then below that attach a photo image for that mix then on the bottom of the page click the create new song or add new song button to start the transfer, a warning box will load up press okay then a progress meter will show up on your screen. DO NOT LEAVE THE PAGE UNTIL IT SAYS IT COMPLETE.

Welcome to the Network.
