Born n raised in the Bronx to Jamaican immigrants Damion Kyng moved all over the BX (tremont, webster, kingsbrigde...) gaining knowledge and hood experience from older cats in the game. Hustling helped with rent, writing helped with stress.

A man who had aspirations of becoming a top selling mc but quickly learned the "rules" of the "game" we call hip hop. Returning to crime to pay his bills the man passed his mic to Damion Kyng, who's spoken word n written verse he had appreciated. "out to change the game" means different now...

Damion I.C.E Kyng wishes to use his talents to feed the hood, his music has recieved accolades from artists like TEK from SMIF n WESS n legends like WHODINI. With Eight tracks on the SOUNDCLICK charts (top ten positions...)

Expect big things to come from Damion Kyng...
