PLAN B used to be Chicago's coolest cover band, but now they have a cooler new name and some very cool new songs. The show material is a mixture of originals, classic & new rock, blues, with an occasional country/rockabilly twang for good measure. HONEY OIL is currently touring the Chicago area.

HONEY OIL's debut album is in the works, as they have been recording with former Ministry guitarist and producer, Louis Svitek. Mr Svitek is known in the music industry for many accomplishments, among them his production work on The Matrix soundtrack album. HONEY OIL's first album is about half done and a couple of the forthcoming tracks appear on the band's demo.

The band is pissed, broke and out for blood. And not above creating a little (harmless) controversy for publicity's sake. This tends to draw curious new fans and hard core followers alike. "I Want to Kill Myself", the first single from the album, though funny & satirically examines a controversial subject with candor and wit. Can you handle the truth wrapped in a catchy hook?

There is also a HONEY OIL video as well. Please visit Eddie the Sound Guy's video channel at www.youtube.com/soundguyedwin. See you on the road! Contact the band by e-mail, n_d9mixer@aol.com By phone: 630-926-9348
