My name is Jeff also known as J.e.f.f. Fresh 2 Def and I'm from Pompano, Flawda (Florida) I was raise in a place where there is hunger 24/7 and it wasn't pleasant. After I was born in Pompano, I moved to Haiti when I was 3 years-old. I use to come and visit during the summer. When I was 13 my parents and I moved back to P-NO(POMPANO) for good. I fell in love with recording when two of my closet friends braught me to the studio. Once I recorded my first track I got addicted with it lol. In my music I represent my family, all my haitians 24/7, and I rep the whole Sunshine State, Gun Sign State (Florida). I love music especially rap, therefore, I'm a student in this game. I want to make a difference in music and I would like to be remember as one of the best that eva step in the booth. I still consider myself a rookie in the music game because I began to record music in January of 2007. I always keep it real cuz being fack is just not me. Most of this rappers are so fack cuz everyone in the hip hop industry want to be a gangsta not me. All I want is to be consider as one of the best that ever done it. I'm not really a good story teller, but I have stories to tell. Now days hip hop word the people don't want to hear no boring stories, unless, the story has a fun and over the top twist at the end. I don't consider myself a rapper more like artist because anything that sound good I would love to be apart of. Hip hop is greatly alive and thank you for your time.
